INDEX TO VOLUME XXXVII

The *Journal of Geology* is instituting for the year 1929 a new system of indexing.

The titles of major articles now appear in italics and are indexed according to locality and geological age as well as by author and by important words in the title. The author's name is given with the exact title of his article following. Important words in the title are indexed and the rest of the title abbreviated with the author's name following in parentheses.

The titles of reviews appear in roman type under important words from the title as well as under the author's and reviewer's names.

Subheads have been added to the index in roman type with the name of the author following in parentheses.

Citations of opinions and articles are another addition in roman type under the name of the author cited.

Formations are listed in roman type under specific names and geological age.

Minerals are in roman type with the geological age and locality indexed.

Acidic differentiate of stock, Ore. (Goodspeed), 159

Adams, F. D. Cited on Hastingsite, 16
Cited on Monteregian Hills, 1, 16
Cited on structures of French River area, 687

Adams, G. I. *Streams of the coastal plain of Alabama and the Lafayette problem*, 193

Agricultural geology. By F. V. Emerson. Review by C. H. Behre, Jr., 721

Ahlmann, H. W:son. *On the formation of hoarfrost and its relation to glacial growth*, 275

Alden, W. C. *Thomas Chrowder Chamberlin's contributions to glacial geology*, 293
Cited on klintar, Milwaukee and Wauwatosa, 25
Cited on Stony Island, 25

Algomian, Minn. (Sanders, Jr.), 135

Algonkian, Minn. (Sanders, Jr.), 137
Mont. (Larsen and Pardee), 97
Ont. (Osborne), 790

Alkali Flat Creek Valley, Wash. (Bretz), 406

Allen, V. T. *Altered tuffs in the Ordovician of Minnesota*, 239
Cited on clays in Calif., 246

Alling, H. L. *Indices of refraction of the Plagioclase feldspars*, 462

Allison, I. S. Cited on Giants Range granite, related to Saganaga granite, 590

Alluvial prospecting. By C. Raeburn and H. B. Milner. Review by W. A. Wenk, 96

Almota Creek, Wash. (Bretz), 417

Alpowa, Wash. (Bretz), 417

Alvord Graben, Ore. (Fuller and Waters), 214

Analyses: Amphiboles (Wolff), 9
Chemical, age and recasting of in refraction of feldspars, 470
Chemical, Decorah shale, Minn. and bentonites, Tenn. and Ky. (Allen), 244
Duchesne meteorite (Nininger), 87
Meteorite, Ballinger, Tex. (Nininger), 90
Nepheline syenite (Larsen and Pardee), 104
Pyroxenite and biotite (Larsen and Pardee), 103
Rocks, Mount Monadnock, Vt. (Wolff), 13
Saganaga batholith (Grout), 575
Saganaga granite and older gneiss (Grout), 572

Analytical principles of the production of oil, gas, and water from wells. By Stanley C. Herold. Review by D. J. Fisher, 190

Anderson, A. L. *Cretaceous and Tertiary planation in northern Idaho*, 747

Anderson, F. M. Cited on Cretaceous deposits of Pacific Coast, 561

Anderson, A. L. *Cretaceous and Tertiary planation in northern Idaho*, 747

Anderson, F. M. Cited on Cretaceous deposits of Pacific Coast, 561

Andrew, A. R. Cited on association of volcanic vents with normal faults, 230

Antevs, E. Cited on review of papers on sandblast action, 260
Cited on varves, 789

Aplites, Mount Monadnock, Vt. (Wolff), 12

Appalachian Valley, Rome ("Watauga") formation (Woodward), 592

Ardmore Basin, Pennsylvanian system in the. By C. W. Tomlinson. Review by A. Bevan, 720

Arizona, N.M., red beds (Reeside, Jr.), 52
S., earth fissure (Leonard), 765
Utah, Colo. red beds (Reeside, Jr.), 49

Arkansas, alkaline igneous rocks (Croneis and Billings), 542
River sills (Croneis and Billings), 548, 549, 550

Arnold, R. Cited on deposits of Deadman's Island, Calif., 617

Askenasy's experiment *in re* water under tension. Cited, 458

Atwood, W. W. Cited on Eocene age of peneplain, Salmon River Mts., 763

Augite, Mount Monadnock, Vt. (Wolff), 11

Australia, paleontological contributions to the geology of western. By R. W. Bretnall and Others. Review by C. C. Branson, 725

Bailey, E. B. Cited on hybrid rocks associated with contact breccia, 158

Bain, H. F. Cited on Platteville defined, 643

Baker, A. A. Cited on Arizona, Utah, and Colo. regions, 49

Baker, C. L. Cited on mountain ranges of Great Basin due to compression, 222

Ballinger, Texas, new meteorite (Nininger), 88

Bancroft, J. A. Cited on Essexites, Mount Royal, 16

Barnes, H. T. Cited on crushing strength of ice, 452

Barrell, J. Cited on correlation of erosion surfaces, 121
Cited on projected profiles in study of erosion surfaces, 117
Cited on Schooley peneplain, 126
Cited on Sunbury peneplain, 132
Cited on terraces, Piedmont region, of marine origin, 114

Bascom, F. Cited on correlation of erosion surfaces, 121
Cited on level surface, Honeybrook, Pa., 132
Cited on Schooley peneplain, 127
Cited on sea cliff suggested by contact of Honeybrook and Schooley peneplains, 114

Baselevel. By D. W. Johnson, 775

Bassler, R. S. Cited on classification of Minn. Decorah, 642
Cited on Glenburnie fauna in Md. and Pa., 670
Cited on Olenellus, Watauga Shales, Va., 600

Bastin, E. S. Review of petroleum and coal. By W. T. Thom, Jr., 728

Batholiths, relation to structures in French River area (Quirke), 687
source (Quirke), 698
and structures, French River area (Quirke), 683

Beach Markings, Wichita Mountains (Evans), 76

Behre, C. H. Jr., Review of agricultural geology. By Frederick V. Emerson, 721

Bell, R. Cited on reefs of stromatoporoids and brachiopods, Keewatin, 26
Cited on structure of Huronian rocks, French River area, 685

Bentonites, comparison of clays with Ordovician (Allen), 246

Berek, M. Cited on methods for chemical and optical analysis, 8

Bevan, Arthur. Review of Initial dips peripheral to resurrected hills. By Josiah Bridge and C. L. Dake, 186
Review of The Pennsylvanian system in the Ardmore Basin. By C. W. Tomlinson, 720
Review of Recent volcanic eruption near Lassen Peak, California. By Howel Williams, 186

Beveling of strata, New York (Fridley), 116

Bibliography of the published works of Thomas Chrowder Chamberlin (1843–1928), 380

Billings, M., C. Croneis and. *New areas of alkaline igneous rocks in central Arkansas*, 542

Billings, M. P. Cited on Amphiboles, 16

Biotite, Mount Monadnock, Vt. (Wolff), 11
and pyroxenite, analyses (Larsen and Pardee), 103

Black Hills, Colo., red beds (Reeside, Jr.), 59

Blackwelder, E. *Sandblast action in relation to the glaciers of the Sierra Nevada*, 256
Cited on age of peneplain, Salmon River Mts., 763
Cited on Eocene age of peneplain, Salmon River Mts., 762

Boca de Serpiente formation (Maury), 179

Boot Island type syenite (Sanders, Jr.), 145

Boutwell, J. M. Cited on Woodside, Thaynes, Ankareh, Utah, as Lower Triassic, 54

Bouyoucos, G. J. Cited on freezing soils, 432

Bowen, N. L. Evolution of the igneous rocks. Review by A. Johannsen, 611
Cited on chemical analyses of feldspars, 480
Cited on eutectic between orthoclase and onorthite, 713
Cited on orthoclase-plagioclase equilibrium, 715, 716
Cited on reaction principle, 175

Brachiopod morphology and genera (Recent and Tertiary). By J. A. Thompson. Review by C. C. Branson, 615

Brainerd, A. E. Cited on fauna in Chugwater limestone, 70
Cited on subdivisions of red beds, 57

Branner, G. C. Cited on Oppello volcanic neck, 543

Branson, C. C. Review of Brachiopod morphology and genera (Recent and Tertiary). By J. A. Thompson, 615
Review of British Carboniferous producti. II. Productus (sensu stricto); Semireticulatus and Longispinus groups. By H. M. Muir-Wood, 727
Review of Contributions to the paleontology of the New Zealand trias. By Otto Wilckens, 726
Review of Fifty years' progress in geology—1876–1926. E. B. Mathews (ed.), 722
Review of Geologic map of the state of New Mexico. By N. H. Darton, 728
Review of Geology, oil, and coal resources of the Oregon Basin, Meeteetse, and Grass Creek Basin quadrangles, Wyoming. By D. F. Hewett, 725
Review of Geology and mineral resources of the Dixon quadrangle. By R. S. Knappen, 723
Review of The geology of portions of the Kimberley division, with special reference to the Fitzroy Basin and the possibilities of the occurrence of mineral oil. By T. Blatchford, 192
Review of On some rock-forming algae from the younger Mesozoic of Japan. By Hisakatsu Yabe and Shirô Toyama, 726
Review of Palaeogene fossils of the island of Kyûshû, Japan. By T. Nagao, 727
Review of Paleontological contributions to the geology of Western Australia. By R. W. Bretnall and Others, 726
Review of Paysages et problèmes géographiques de la terre américaine. By D. W. Johnson, 726
Review of Plants as indicators of ground water. By O. E. Meinzer, 728
Review of Records of the geological survey of India (Vol. LXI, Part II), 616
Review of Report on the geology of the Zanzibar protectorate. By G. M. Stockley, 725
Review of Southern California geology and Los Angeles earthquakes. By R. T. Hill, 724
Review of Stratigraphy of China. Part II. Mesozoic. By A. W. Grabau, 724 and R. T. Chamberlin. Review of North America. By I. C. Russell, 288

Branson, E. B. *"Triassic-Jurassic 'red beds,' Rocky Mountain region": a reply*, 64
Cited on age of Popo Agie beds and Jelm, 58, 59
Cited on correlation table, Triassic-Jurassic red beds, Rocky Mt. region, 49
Cited on Eolian deposits, 61
Cited on paleogeographic map, N.A., Triassic, 47
Cited on section, Uinta Mts., Colo., 56
Cited on "Triassic-Jurassic red beds of the Rocky Mountain region," 47, 49

Brazil branch breccia (Croneis and Billings), 554

Breccia, changes in matrix of, Ore. (Goodspeed), 167

Breccias (Croneis and Billings), 551, 554, 557

Bretnall, R. W., and Others. Paleontological contributions to the geology of Western Australia. Review by C. C. Branson, 725

Bretz, J H. *Valley deposits immediately east of the channeled scabland of Washington*. I, 393; II, 505

Bridge, J., and C. L. Dake. Initial dips peripheral to resurrected hills. Review by A. Bevan, 186

Bridgman, P. W. Cited on pressure and freezing point, 454

British Carboniferous producti. II. Productus (sensu stricto); Semireticulatus and Longispinus groups. By H. M. Muir-Wood. Review by C. C. Branson, 727

Bryan, K. Cited on drainage ways, Wash., 396
Cited on method of valley cutting pediment, South Mountain, 681

Bucher, W. H. Review of Grundzüge der Geologie. By W. Salomon, 91

Buckley, E. R. Cited on shales in Mo., 246

Burt, F. A. Review of color chart for field description of sedimentary rocks. By M. I. Goldman and H. E. Merwin, 616

Butler grade (Bretz), 527

Butts, C. *Some issues in Chester stratigraphy in Kentucky and Illinois*, 30
Cited on fossils, Ala., 598
Cited on Linnarssonia in Waynesboro shales, Va., 599
Cited on name Rome applied to Watauga formation, 596
Cited on Olenellus fauna in Rome formation, 598

California, anomalous stratigraphy, Deadman's Island (Crickmay), 617
recent volcanic eruption near Lassen Peak. By H. Williams. Review by A. Bevan, 186
southern, geology and Los Angeles earthquakes. By R. T. Hill. Review by C. C. Branson, 724

Calkins, F. C. Cited on old-age valley trenched by Cœur d'Alene River, 755
Cited on valleys of Cœur d'Alene River drainage, 754

Calvin, S. Cited on nomenclature of Decorah formation, 640

Cambrian, Appalachian Valley (Woodward), 592
Minn. (Sanders, Jr.),147

Camel, fresh skull of extinct American (Romer), 261

Camelops (Romer), 261

Campbell, H. D. Cited on name Buena Vista shales applied to Watauga formation, 594

Campbell, M. R. Cited on Harrisburg peneplain, 132
Cited on name Graysonton applied to Watauga Formation, Va., 595
Cited on name Russell applied to Watauga Formation, Va., 594
Cited on Olenellus fauna in Russell formation, 598
Cited on study of Peneplanation, N.Y., 122
Cited on sub-aerial base-leveling due to Swatara and Condonoguinet creeks over Harrisburg peneplain, 114

Canada, Correlation of varves (Coleman), 783
Klintar (Shrock), 26
Thermal stratification in lakes of (Kindle), 150
